ABOUT ME

I'm a full stack developer focused on the front-end. I love structures and like to spend my time searching for little things to optimize my applications. I'm always trying to learn and become the closest to my best self.

EXPERIENCE

Controlle, Criciúma — *Front-end developer (React)*

MARCH 2022 - AUGUST 2024

Developed the newer version for the application, updating to React.

Weex Pass, Curitiba — *Full stack-developer*

JUNE 2021 - JANUARY 2022

Development of travel benefits platform, using React on the front-end and Node with MongoDB on the back-end.

Gestor SA Tecnologia da Informação, Pelotas — *Front-end developer (React)*

MARCH 2021 - JUNE 2021

I worked with jQuery, React and C#, responsible for migrating a system built in Visual Basic to a web system built in React.

EDUCATION

Brigham Young University

SEPTEMBER 2023 - AUGUST 2027

Bachelor of Science, Software Development

Kenzie Academy - Brazil
